Professional Experience

2026–2026 **PhD Intern**, Bank of England

- Conducted empirical analysis of the transmission of stress from non-bank financial institutions to corporate bond markets and broader financial stability
- Combined granular holdings data (LSEG eMAXX and regulatory bank and insurance holdings), MiFID II transaction-level data, and bond-level data to study effects on spreads, liquidity, and issuance

2022–2024 **Trainee/Research Analyst**, European Central Bank

- Conducted analysis of financial institutions' sensitivity to climate and nature risks using credit registry date and multi-sector and international datasets
- Assisted in developing climate stress test scenarios, both long- and short-term, as part of the ECB's stress testing exercise
